Stand-by mode power consumption < 1 Watt

HDMI™ port

Recording/timeshift [3] on external hard disk

Kathrein easy-use EPG

HD Satellite Receiver UFS 940sw

The UFS 940 is equipped with a tuner and a USB port allowing connection of an external hard disk drive which enables films and radio broadcasts to be recorded. Time-shifted TV viewing is also possible. The well-structured Kathrein easy-use EPG allows recordings to be planned in advance.
With compact dimensions, a removable remote control sensor and an external 12-V power supply unit, this receiver has been specially designed to meet the demands of concealed installation in caravans. The unit can be used to control the CAP 900/910, CAP 700/710 and CAP 600/610, as the set of commands is integrated.

The receiver is available in black.
